Chandigarh, India | parasbhatia122@gmail.com | +91 8929008294 | linkedin.com/in/paras-bhatia

Summary: My development journey began with hands-on experience in Node.js, Express, React JS, MongoDB, and MySQL during my internship. Over time, I expanded my skill set to include modern technologies like Next.js, Firebase, Tailwind CSS, Material UI, shadCn, AWS S3 bucket for cloud storage, basics of Docker for containerization, and third-party integrations including Stripe, Polygon API, Benzinga, and OpenAI. This progression has shaped me into a well-rounded MERN stack developer with real-world project experience and the ability to take full ownership of frontend and backend systems.

EXPERIENCE

Software Engineer L2

February 2025 – Present

Talentedia Technologies PVT LTD

- Leading the development of Tradeecho – a trading analytics platform used by option traders.
- Managing client communication and coordinating across web and admin development.
- Overseeing architecture and full-stack development using React.js, Node.js, and Next.js.
- Implementing authentication, dashboards, reports, and real-time data sync modules.
- Utilizing JIRA for project management and following agile methodology for iterative development.

Software Engineer L1

January 2024 – January 2025

Talentedia Technologies PVT LTD

- Developed and maintained Giverr – a social platform for volunteer engagement.
- Built Talentedia.com – the company's dynamic and SEO-optimized website.
- Gained deep expertise in Firebase, Next.js, and real-world application scaling.
- Actively contributed to project architecture and frontend/backend development.
- Ensured clean, maintainable code by adhering to best practices and code reviews.

Junior Software Developer

January 2023 – January 2024

Talentedia Technologies PVT LTD

- Collaborated with senior developers and team to understand project requirements and objectives.
- Actively contributed to codebase quality through code reviews and adherence to best practices.
- Effectively communicated with clients for project alignment and feedback.
- Conducted debugging, root cause analysis, and implemented solutions to resolve issues.
- Maintained comprehensive project records by documenting code, processes, and updates.

Software Intern

August 2022 – December 2022 · 5 months

Talentedia Technologies PVT LTD

- Gained hands-on experience in web development using Node/Express, React JS, MongoDB, and MySQL.
- Completed projects including an E-commerce website and an Attendance Management System.
- Gained valuable insights through mentorship and live project participation.

PROJECTS

Tradeecho.com

November 2024 – Present

Tradeecho is a trading analytics platform for option traders. It enables brokers to view real-time market data and analyze portfolio performance by uploading or manually entering trades. I used Stripe as third-party integration for subscription-based model and OpenAI API to analyze portfolios and answer related questions. In this role, I manage client communication and contribute to full-stack development.

- Frontend: React.js with Tailwind CSS
- Backend: Node.js and Express.js
- Admin Panel: Next.js with Firebase Authentication

- Main landing page: Next.js
- File Storage: AWS S3 Bucket

Giverr

February 2024 – November 2024

Giverr is a social networking platform that connects nonprofits with volunteers to promote real-world selfless engagement. I led the project solo, handling development and deployment end-to-end.

- Technology Stack: Firebase Authentication, Firestore, Next.js, Bootstrap
- Roles: Full-stack Development, Deployment, Maintenance

Housiko.com

September 2023 – February 2024

Housiko is a property listing platform for the Australian market. It provides users with options to list, browse, and inquire about residential properties. I contributed to both frontend and backend development.

- Technology Stack: Next.js, AWS S3
- Role: Full-stack development and API integration

TECHNICAL SKILLS

Front-End:	HTML, CSS, Bootstrap, Tailwind, Material UI, shadCn, JavaScript, React, Redux, Next.js
Back-End:	Node.js, Express.js, RESTful APIs, Next.js
Database:	MongoDB, MySQL, Firestore by Firebase
Third-Party Integrations:	Stripe, Polygon API, Benzinga, OpenAI
Cloud & DevOps:	AWS S3, Basics of Docker, Basics of Lambda Functions
Project Management:	JIRA, Agile Methodology
Version Control:	Git, GitHub
AI Tools:	Cursor.ai, Copilot, ChatGPT, Claude.ai, Gemini
Soft Skills:	Adaptability, Ownership, Eagerness to Learn, Team Leadership, Motivated

EDUCATION

Bachelor of Computer Applications

2018 – 2021

Kalinga University, Raipur, Chhattisgarh

Polytechnic (Equivalent to +2)

Govt Polytechnic, Sirsa, Haryana
